

Have these examples used the inverse relationship?

$20 + 5 = 25$		$25 - 5 = 20$
$13 - 4 = 9$		$9 + 1 = 10$
$18 + 6 = 24$		$6 + 18 = 24$
$53 - 10 = 43$		$10 - 53 = 43$
$28 + 17 = 45$		$45 - 17 = 28$
$20 - 2 = 18$		$18 + 2 = 20$

Which of these are fact families?

$6 + 4 = 10$
$4 + 6 = 10$
$10 - 4 = 6$
$10 - 6 = 4$

$20 + 8 = 28$
$20 - 8 = 12$
$12 + 3 = 15$
$15 + 3 = 12$

$40 + 8 = 48$
$40 + 8 = 48$
$48 - 8 = 40$
$48 - 8 = 40$

$26 + 3 = 29$
$29 - 3 = 26$
$3 + 26 = 29$
$29 - 26 = 3$

For any incorrect fact families, correct them below:
