2020- A Year of Change
Inspired Play Challenge

2020:
A year of change.

During Inspired Play we thought that it would be nice for the children to take part in the Rainbow Trail.

You may have seen this on social media or on the news, children all around the country are drawing, sticking, painting rainbows and putting them up in their windows at home.

The idea being that rainbows make people smile and it is a way of spreading some happiness during a tough and unusual time.

We would like the children to make their own rainbow and stick it in a window at home and hopefully we can fill our community with rainbows.

We are aware that at this time we are being encouraged to stay at home so we can all stay safe but how lovely would it be to see all the rainbows as we begin to venture outside again. (And at the moment 1 walk a day supervised by our adults is fine as long as we all remember the social distancing advice.)

On your rainbow please put our school name and either Ladybirds or Bumblebees Class.

Once the children have made their rainbow and it is up in your window please take a photo and send it to Mrs Ryan, jryan@seal.kent.sch.uk who will collate all the photos and maybe when you are out and about you may spot one.

Also we would love to see them on Tapestry.

We look forward to seeing your rainbows- Good Luck!
